

## FOAM PLAS™ (7L)

### *Profile Extrusion & Injection Moulding Cost Savings Additive*

- *Incorporates small gas cells into your process resulting in reduced material consumption and lower costs without negatively affecting physical properties*
- *Lower specific gravity of finished goods*
- *Reduced amperage draws on drive motors for the same rate of production resulting in lower utility costs*
- *Effective in PE, PP, PLA, PBAT, PBS, PHA, PVC, ABS, PS, SAN and Compostable Resins*
- *1-2% inclusion rate*
