Expanding Horizons:

Simcoe Plastics Exploring the UK Market

Simcoe Plastics is always looking ahead and is now aiming to develop UK partnerships. We're actively exploring opportunities to bring our trusted full-service distribution network and material solutions to the UK. With strong ties to North American manufacturers and a growing interest in transatlantic collaboration, the UK market presents a natural next step in our international growth.

If you are a UK-based distributor or manufacturer looking for a reliable partner in the plastics industry with a North American edge, we would love to connect.

Join us in embracing smarter, stronger, and more sustainable solutions!

That Plastics Guy Podcast:

Industry Voices You Shouldn't Miss

That Plastics Guy, a.k.a Kurt Stahle (President, Simcoe Plastics), continues to feature respected voices in the plastics industry on his podcast. From technical experts to sustainability advocates, these episodes offer insights on institutions which can be of significant benefit to your organisation.

Guests share their real-world experience and discuss the challenges and opportunities shaping the world of plastics - you don't want to miss these!

Recent guests include:

Mehdi Sheikhzadeh & **Steve Reaume** of the Canadian Extrusion Research Laboratory (CERL). In this episode, they discuss the history of "CERL" and the massive scope of projects that they are capable of taking on.

Bindi Patel - creator of ECorrrect Water Soluble Resin. ECorrrect resin was created to offer a cost-effective and environmentally friendly alternative to conventional resins used in the film and packaging sector.

Chloe Linsmeier & **Brent Berquist** of Advanced Blending Solutions (ABS). ABS is a specialist engineering and fabrication company that builds conveyance and blending equipment. This episode includes the company's history, product offerings, gravimetric vs volumetric metering systems, and finally, ABS's green initiatives.

Feel free to contact us or these organizations directly to find out what they can do for you!

Get to Know Kurt!

Featured on Redefining Plastics

Kurt Stahle was recently featured on "Redefining Plastics" Podcast (hosted by Justin Riney) as a veteran in the Plastics industry.

The episode explores Kurt's extensive experience and insights, from starting in his father's injection molding company to owning and running Simcoe Plastics.

Listen in to hear about the challenges he faced, the evolving landscape of the plastics industry and the impact of tariffs and free trade agreements. Kurt shares the many intricacies of the plastics business and the importance of responsible production.

As we move through 2025, I'm pleased by the momentum we're building here at Simcoe Plastics. With our strong partnerships across North America and growing interest from new regions, we're setting our sights on expanding into international markets.

The mission of Simcoe Plastics is to partner with plastics processors to provide access for them to approachable, knowledgeable, trustworthy, and responsive engineering, purchasing, prototyping & consulting services.

Expanding into new markets allows us to do just that, while staying true to who we are: problem solvers & solution creators.
