## *The Holiday Edition*

DEC 2025

### **No Lump of Coal in Your Stocking this Season, Just Premium Black Masterbatches from Simcoe Plastics!**

This holiday season, our customers don't have to worry about lumps of coal, but they can count on Simcoe Plastics Ltd. to deliver premium masterbatch for all their polymer needs.

Quality isn't a seasonal promise but our year-round commitment. Our masterbatches are developed to enhance processing, improve durability, and support the demanding requirements of today's plastics industry.

We take pride in offering masterbatch solutions that consistently meet the highest standards. Our colour concentrates are engineered for accuracy and repeatability, ensuring your final product looks exactly as intended, batch after batch.

This December, rest assured: there's no coal coming your way, only top-tier black masterbatch from a Canadian partner you can count on.

**"Quality isn't a seasonal promise but our year-round commitment."**

# That Plastics Guy Recap

Let's look back on **2025**

That Plastics Guy Podcast celebrates another year of growth, expert insights and weekly industry tips. Let's unwrap this year's highlights:

## Guests

We're grateful to these industry leaders, innovators, and thinkers who helped shape our conversations throughout the year.

- Justin Riney  
*INEOS Styrolution America, LLC  
& Polystyrene Recycling Alliance*
- Dharmendra Khanolkar  
*ExCista Corporation*
- Chloe Linsmeier & Brent Berquist  
*Advanced Blending Solutions*
- Bindi Patel  
*ECOrrect Private Ltd*
- Jonathan Knott  
*Explore Skilled Trades*
- Brett Minken  
*Andicor Speciality Chemicals*
- Darrel Fry  
*ABC | 3D*

Be our **GUEST** in 2026!

Send us an email at  
[info@simcoeplastics.com](mailto:info@simcoeplastics.com)

## Podcast Milestones

- Celebrated our 100<sup>th</sup> episode.
- Improved video & audio quality.
- Welcomed guests from new sectors.
- Increase in episode downloads.

## Tech Tip Friday

Tech Tip Friday #TTF series continued to grow in popularity as listeners were eager to learn from Kurt's 40+ years of industry experience. He shared weekly tips from real life experience and discussed how to overcome both simple and complex issues that plastics manufacturers face on the shopfloor.

## What's in Store for 2026

2026 will mark an exciting step forward for the digital presence of That Plastics Guy. What began as a podcast designed to keep the plastics conversations going will evolve into a broader educational platform.

We're also taking a dive into the wonderful world of AI, and we can't wait for this new era of That Plastics Guy.

## Check Nylon 6 off your Wishlist with Simcoe Plastics

Simcoe Plastics offers a range of Nylon 6 grades to meet your varying performance needs. Maximum strength, smooth processing, dimensional stability or superior toughness? Check!

**Nylon 6 with 30% Glass Filler**  
Available in black and natural.

**Unfilled Nylon 6**  
Available in black and natural.

**Impact Modified Nylon 6**  
Available in natural.

## New Supply Partner – Polytives GmbH

*"Where innovation meets performance –  
and your plastics reach their full potential."*

We are excited to announce our newest supply partnership with Polytives GmbH, a leading German innovator in advanced plastic additives.

Polytives specializes in next-generation, high-performance polymeric additives designed to make industrial plastic production significantly more efficient, economical, and sustainable.

Whether using biobased plastics, recycled materials, or highly filled compounds, their proprietary technology focuses on optimizing the processing of polymers by notably reducing melt viscosity. This enables manufacturers to lower processing temperatures, shorten cycle times, and save substantial energy and material costs. This also enhances the flow properties and maintains the quality of the final plastic products.

To discuss how Polytives can benefit your applications, please reach out to us!

As the year winds down and holiday lights brighten our chilly Canadian evenings, Simcoe Plastics is celebrating a year of growth. Our expansion is a direct reflection of your trust in us, and we're grateful for the opportunity to support your success.

To those who tune in to my podcast, "That Plastics Guy", thank you for encouraging the positive conversations about plastics.

May this season bring rest and joy after a year of hard work and progress. Here's to an exciting new year that brings us more innovation, fresh opportunities and material that behaves exactly the way it's supposed to...on the first try.

On behalf of the entire Simcoe Team,  
warmest holiday wishes from the  
company where there's always a  
*Passion for Polymers.*

*Kurt Stahle*

President  
Simcoe Plastics Ltd.
