

Thermoplastic Materials

A *Canadian* Distribution Company with Technical Know-How to Support You!

- Material selection and prototyping services
- Custom and commodity colourants & purge compound
- Functional masterbatches
- Engineered compounds
- Partnerships with key strategic suppliers
- Processing equipment sales

Products

We have a robust roster of products to share with you, the processor! Strategic supply partnerships allow us to offer polymers, colourant, functional masterbatches, purge, and processing equipment, as well as our own in-house consulting services.

Knowledge

At Simcoe Plastics, we have four decades of industry experience. As experts in the polymer industry, we will immediately understand your requirements and provide you with technical solutions. We live it - everyday.

Sustainability

We have award winning water-soluble and plant-based bio-polymers to offer. We have an additive that will trigger biodegradation in any product containing it. This is the cutting edge of “green”! We invite you to take the next step in creating a better future.

Ready to Serve

For over four decades, Simcoe Plastics has been providing innovative, sustainable, and cost effective thermoplastic resins, colourants, additives, functional masterbatches, and processing solutions.

Our President, Kurt Stahle, began his career working at his family's plastics business as a teenager. The values he acquired early in life still ring true today; treat customers with the utmost respect, act with integrity, and share knowledge to problem solve and advance the industry.

We are passionate about meeting client needs, from the shop floor to the boardroom. We invite you to experience *the Simcoe Plastics difference.*
