

Additives and Functional Masterbatches

A Canadian Technical Sales Company with World Class Products for You!

- Specialty & commodity processing additives
- Custom & commodity colourants
- High performance mold release
- Biodegradable additive
- Melt Flow Modifier
- Odour and VOC absorbing technology
- Partnerships with key strategic suppliers

Product

We have a robust roster of products to enhance *your* products and process! Innovative partners allow us to deliver colourant, functional masterbatches, and biodegradable options. Our technical services bring your applications to life.

Knowledge

At Simcoe Plastics, we have four decades of industry experience. With this, we will listen to, and understand your requirements. We will develop for you a comprehensive technical solution, leveraging the depth of our supply partners. We live it - everyday.

Sustainability

We have award winning water soluble bio-polymer and PFAS alternatives. Also an additive that will trigger biodegradation in any product containing it. This is the cutting edge of "green"! We invite you to take the next step in creating a better future.

Colourant			White (UV or non)		

Ready to Serve

For over four decades, Simcoe Plastics has been providing innovative, sustainable, and cost effective thermoplastic resins, colourants, additives, and processing solutions.

Our President, Kurt Stahle, began his career working at his family's plastics business as a teenager. The values he acquired early in life still ring true today; treat customers with the utmost respect, act with integrity, and share knowledge to problem solve and advance the industry.

We are passionate about meeting client needs, from the shop floor to the boardroom. We invite you to experience *the Simcoe Plastics difference.*
